Chimney Cap Styles

<p>Sweep</p>  A chimney cap with a wide, flat top and a low, sloping roof. The front edge is slightly raised, and there are small protrusions on the sides.	<p>American Cottage</p>  A chimney cap with a gabled roof and a decorative front panel featuring a central square opening. The sides have a slightly flared appearance.	<p>Pyramid</p>  A chimney cap with a steep, pyramidal roof supported by several vertical ribs. The base is flat with small feet.
<p>Revival</p>  A chimney cap with a square top and a decorative, lattice-like structure on the sides, resembling a small gazebo or pavilion.	<p>Shotgun</p>  A chimney cap with a gabled roof and a decorative front panel featuring a central opening with a pointed top. The sides are slightly flared.	<p>Sunset</p>  A chimney cap with a curved, semi-circular roof and a decorative front panel featuring a central opening with a pointed top. The sides are slightly flared.

Chimney Cap sold separately
