NAICS CODES: 3323, 332322

White-Herrin Metals specializes in the precision craftsmanship and fabrication of commercial and residential exterior metal accent pieces. We are a regular supplier of custom sheet metal components for both large and small roofing, construction, and window companies. We are also a reseller of specialty roofing products and tools. Our team has the flexibility to collaborate with anyone involved in a project. Although diverse, our customers share a need for quality products on tight timelines, and we deliver.
